

BOXER JKD **(Juvenile Kidney Disease)**

As part of the JKD research project, the following pedigrees are published by the UK BOXER BREED COUNCIL to show the details of the parents of boxers diagnosed with JKD.

- JKD Cases numbered 1 – 33 all have written permission from the owner for details of the parents to be published and a veterinary report confirming diagnosis.

- Cases numbered from 34 onwards meet the latest criteria set by the Health Committee and agreed by the Boxer Breed Council prior to publication which is as follows:
 - **All cases have been reported by their owner.**
 - **Pedigree/KC Registration information is available.**
 - **The medical information should be contained in a veterinary report.**
 - **Symptoms usually start to become apparent between four months and four years.**
 - **Blood tests show an increase in Urea, Creatinine and Phosphorous levels.**
 - **Urine Specific Gravity (USG) is abnormally low.**
 - **Kidneys are an abnormal shape and reduced in size.**

- Parents of all diagnosed cases are shown in blue, indicating that they are the sire or the dam of at least one affected puppy. It does not necessarily imply that these dogs are responsible for the inheritance of the disease in the pedigrees.
- The coefficients of inbreeding (COI) are given with each pedigree. These COI's were obtained using information to a 10 generation pedigree, where possible.
- Please note that just because a dog or bitch is not written in blue on a published pedigree, this does not mean that this dog is clear of any risk of being a Boxer JKD carrier. Many of the dogs not highlighted in blue can be siblings to either known cases or to other Boxer JKD carriers. So it is best to use all the available information from all the published pedigrees.

No attempt is made at this stage to interpret the pedigrees and identify sources of the JKD mutation.

Further information on JKD can be found at
<http://www.boxerbreedcouncil.co.uk/jkd.html>

Addition Information at:
<https://www.boxerjkd.com/what-is-boxer-jkd.html>
